

Reality Check-In

May 25, 2013

Bite
0230

You are now having euphoric hallucinations for the next five minutes, unless you know otherwise.

You are also now addicted to Bite. Keep these instructions, they are now out of game. One hour after consuming, you will begin to feel withdrawal symptoms. You'll need to take more Bite to fend them off. The withdrawal symptoms are weakness (CR= 1) and itching skin. Roleplay accordingly. If you fail to take more Bite within 15 minutes, you will additionally suffer from headache, nausea, and tremors. Roleplay accordingly.

Every hour after taking Bite, this packet activates again.
